EZEdgeTM Transition Ramps

Site Applications

EZEdge™ Transition Ramps

In this catalog you will find the world's largest selection of recycled rubber transition ramps. Designed for durability and safety, these ramps can be used in the harshest conditions for both exterior and interior applications for commercial and residential purposes.

We were the first to receive a U.S. Patent for recycled rubber transitions and have been supplying the architectural and building industry for over 24 years with high quality, long lasting barrier removal products. All EZ Edge™ transition products come with a 10 year standard warranty and have been featured on national programs such as the History Channel and This Old House.

SafePath™ is recognized as the leader in "green product" barrier removal products, which are made from 100% post-consumer recycled tire rubber material. Only the highest quality recycled material is allowed in our products and we guarantee each and every product produced for workmanship, durability, safety and years of maintenance free use.
